

Highlights from Saunders Students on Co-op

What's great about your co-op?

My co-ops with Intuit have been an amazing experience because, from day one, the managers help you develop by putting you on projects that have a direct impact on the company's success.

Why Saunders College and RIT?

I decided to attend Saunders College of Business specifically because of the co-op program. RIT has connections with hundreds of companies of every size and in almost every industry. I knew from the first time I walked on campus that it was the right place for me.

What is the most distinctive advantage gained from your Saunders experience?

The most distinctive advantages I gained from my Saunders experience were the connections I developed with faculty and advisors. It was incredibly easy to connect with them after their classes and they would help out in any way possible to ensure success in their classes and careers.

**Major in New Media Marketing and Management Information Systems
Class of 2017**

**Co-op Company: Intuit
Co-op Position: Program Manager**

Zachary White

"RIT has prepared me for the intense work load major companies require. My RIT course work has given me a unique set of skills that give me a leg up on other students. Every day I am using skills and techniques I learned at RIT. Without RIT's knowledgeable professors and valuable relationships, I know I could not be where I am today."

Intuit Inc. is an American software company that develops financial and tax preparation software and related services for small businesses, accountants and individuals. It is incorporated in Delaware and headquartered in Mountain View, California.
