Jacqueline R. Mozrall, Ph.D.
Assistant Professor, RIT Leadership Institute & Community Service Center

Dr. Mozrall joins the Management and Organizations faculty at Saunders College of Business. With an interdisciplinary approach and a focus on leadership development, she teaches courses related to leadership and the management of innovation. Dr. Mozrall’s research examines the role of curiosity and provides leadership and enthusiasm that guide students toward success.

Young “ Neil” Bui
Assistant Professor, Information Systems

Dr. Bui received his Ph.D. in Business Administration from the University of Maryland and is a member of the American Academy of Information Systems. He focuses on the content and application of IT management practices, with particular emphasis on innovation adoption issues and diffusion processes. His research includes empirical work on relations between technology, culture and social networks. Recently, Dr. Bui has also been involved in research on angel-investing groups and venture capital markets. Having been involved in the co-creation of new ventures, Dr. Bui is well-equipped to provide students with real-world business experiences in the classroom.

Dean and Professor, Saunders College of Business

Jacqueline R. Mozrall, Ph.D.
Assistant Professor, RIT Leadership Institute & Community Service Center

Dr. Reinicke holds a Ph.D. in Information Systems from Michigan State University. He is a member of the American Information Systems Association and has published work in journals such as MIS Quarterly Executive and Information & Management, particularly IT management practices. His research includes empirical work on relations between technology, culture and social networks. Recently, Dr. Reinicke has also been involved in research on angel-investing groups and venture capital markets. Having been involved in the co-creation of new ventures, Dr. Reinicke is well-equipped to provide students with real-world business experiences in the classroom.

Dr. Wang joins Saunders College after receiving her Ph.D. in Human Resource Management from the University of Illinois at Urbana-Champaign. Her research includes empirical work on relations between technology, culture and social networks. Recently, Dr. Wang has also been involved in research on angel-investing groups and venture capital markets. Having been involved in the co-creation of new ventures, Dr. Wang is well-equipped to provide students with real-world business experiences in the classroom.
