

Saunders College of Business: Employment and/or Graduate School Plans Survey

We are very interested in knowing what you will be doing after graduation. Please take a few minutes to report your new job or graduate school plans. The information you provide will be kept strictly confidential by the RIT Cooperative Education and Career Services office and will only be used in reporting aggregated data, not linked to individuals.

- **Why share your information?** RIT Cooperative Education and Career Services maintains employment data for RIT. This includes what graduates are earning. Aggregated data (e.g. average salary) is available to assist you with negotiating your salary. Employers use it so their offers are competitive. This data also helps us serve our students, to better assist them with their job searches. We also use the data to report program outcomes for accreditation purposes and business school rankings, which can increase the value of your degree.
- **Still seeking employment?** We are available to assist and invite you to contact us by email: Maria.Richart@rit.edu, Tlaoce@rit.edu, Julian.Huenerfauth@rit.edu, or by phone at 585-475-2301.
